February to July 2019 Course Schedule

APPROVED TRAINING PARTNER

SKILLS LIMITED

Introduction

Established in 2015 and based on over 25 years of experience designing and delivering IRCA accredited training courses. QMS Skills training courses are highly rated by our clients who include, Chartered Quality Institute, European Space Agency, Siemens, Renishaw, EEF, and Fujitsu.

The legendary Steve Meakin has designed the courses to be Interactive, giving all delegates the opportunity to learn and apply the knowledge in a simulated environment. With exam success rates consistently high we are proud of our delegates' achievements; our client testimonials speak for themselves and you can see a selection of them at www.qmsskills.co.uk

Whilst auditor training, delivered through our open programme or directly on client sites, is at the heart of our business, we offer support to provide independent audit or gap analysis, auditor refresher workshops or simply offer advice and guidance to individuals and organisations on a wide variety of ISO standards including 9001, 14001, 17025, 44001 & 45001.

Since the middle of 2018 QMS Skills and EEF The manufacturers' organisation have been collaborating to design and deliver training to support the widely anticipated ISO 45001:2018 OHSMS standard recently published. Combining QMS Skills knowledge and history of consistently developing and delivering excellent IRCA training programmes with EEF's world class expertise in Occupational Health and Safety Management Systems, we have started to deliver a suite of courses that provide H&S professionals with practical and leading-edge training delivered by experts in their field.
